Springs and China Beach Pools

Julie Bealing and David Allen have been in contact with several concrete specialists to obtain quotes for works to be done at both pools.

It was agreed that it was near impossible to get an accurate quote for works without more information on the scope of the problems. It was decided at the meeting that an X-ray of both pools would be conducted on Wednesday the 14th to better understand the construction of the pools and the extent of any damage to the concrete.

The committee agreed to spend \$2,800 to get both pools X-rayed.

Keith Michel motion

It was agreed by the committee that the three committee members that had not seen the report would now sign the confidentiality agreement and have access to the confidential report. It was also agreed that Keith Michel would also be invited to sign the confidentiality agreement and have access to the report.

Meeting ended 4pm
